

AARAV SHARMA

B.Tech Computer Science (5th Semester) | Pune, India
aarav.sharma@example.com | github.com/example-aarav

EDUCATION

B.Tech Computer Science & Engineering, Example Institute of Technology, Pune. 2023 - 2027 (expected). CGPA 8.1/10. Relevant coursework: Data Structures, DBMS, Operating Systems, Computer Networks, Machine Learning (ongoing).

SKILLS

Languages: Python, C++, JavaScript, SQL (basic)

Libraries: NumPy, pandas, scikit-learn (coursework), React (self-taught)

Tools: Git, VS Code, Jupyter Notebook

Also listed: Machine Learning, Deep Learning, Cloud Computing

PROJECTS

Student Attendance Tracker (Aug 2025) - Web app to mark and view class attendance. Built the frontend in React and stored records in a local SQLite database via a small Flask backend. Used by 2 classmates for one semester. No tests, deployed only on localhost.

Movie Recommendation Notebook (Mar 2025) - Course project. Used pandas and scikit-learn on the MovieLens dataset to build a collaborative-filtering recommender. Evaluated with RMSE. Work stayed in a Jupyter notebook.

Tic-Tac-Toe with Minimax (Nov 2024) - Command-line game in C++ implementing the minimax algorithm with alpha-beta pruning.

EXPERIENCE

Technical Team Member, Coding Club, Example Institute (2024 - present) - Helped organise two intra-college hackathons; wrote the registration form used by 180 participants.

ACHIEVEMENTS

Runner-up, intra-college hackathon 2025 (team of 4). Completed an online course on Python for Data Science.
